

Firm & Philosophy

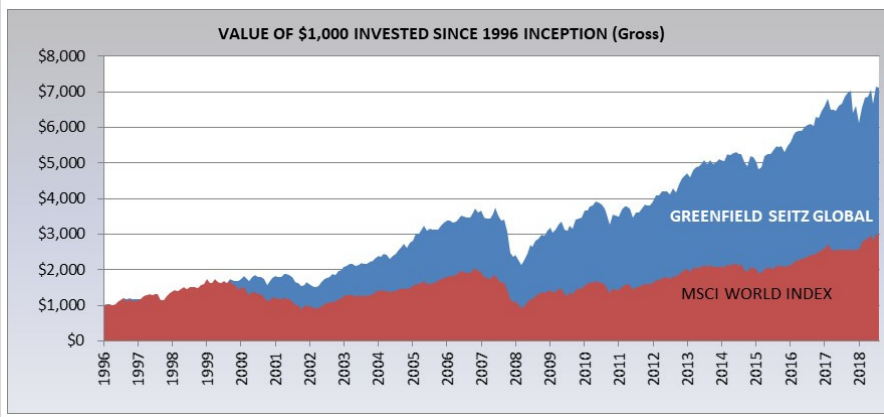

Greenfield Seitz Capital Management is an SEC Registered Investment Advisor located in Dallas, TX. We manage individual and institutional accounts via a growth-at-a-reasonable-price (GARP) fundamental discipline. Our objective is to achieve attractive returns over the long-term while simultaneously maintaining a commitment to capital preservation. As thematic investors, we look to identify investment themes that are not fully valued or appreciated. Portfolios are managed in our time-tested manner that has worked consistently since 1964. We focus on large-cap stocks with an aim to own stocks more than 10 years.

Portfolio Construction

At GSCM, our management team has applied our investment process successfully and consistently for over 50 years. In fact, proof of our conviction can be shown through our largest investors: the Greenfield and Seitz families. We believe that investing in companies with proven and growing fundamentals will lead to long term appreciation. Our stock selection process seeks companies with proven management, consistent earnings growth, and dominant business franchises. The strategy aims to find companies with above average ROE (return on equity) and low debt. We overlay this bottom-up stock selection with our long term industry and macro-economic views. Our portfolio consists of 40-50 holdings across industries and sectors with a maximum international exposure of 40%. The maximum position in a single stock is 10%, and we generally maintain an asset allocation of 90% equities 10% cash, which will vary with tactical allocation.

Disclosures

Firm Information: Greenfield Seitz Capital Management LLC ("GSCM") is a registered investment advisor based in Dallas, Texas. GSCM specializes in managing separate investment accounts for high net-worth individuals, with a focus on equities. GSCM utilizes Raymond James Financial, Inc. as its custodian of assets. Registration does not imply a certain level of skill or training.

Composite Characteristics: The GSCM Core Composite is comprised of accounts whose primary objective is growth of principle by investing primarily in stocks of U.S. and international companies. Before investing with GSCM, all clients agree to the investment style, so all accounts are employing GSCM's investment strategy. The composite contains all discretionary accounts that exceed the minimum asset level. A complete list and description of all firm composites is available upon request from GSCM by calling 800-301-8849. The minimum portfolio size for the GSCM Core Composite is \$1,000,000. Accounts may include up to 20% fixed income investments. As a whole, fixed income securities represent less than 5% of total composite assets. The start date for the GSCM Core Composite was December 31, 1996 and the composite was created in October 2004. The composite benchmark is the S&P 500 Index, which represents two-thirds of U.S. equity market value and the MSCI World Index, which is a large cap representation across 23 developed countries. The MSCI World Index is net of withholding taxes and was added as a benchmark 1/1/17. Accounts are removed on a monthly basis from the composite when assets fall below 70% of the minimum or cash increases to more than 35%. Dispersion is only shown on annual periods.

Calculation Methodology: Valuations and returns are computed and stated in U.S. dollars, and individual portfolios are revalued monthly. Pricing information is supplied by ISS. The firm uses the trade date monthly returns and links these returns geometrically to produce an accurate time-weighted rate of return. Prior to January 2002, some accounts may have employed the use of settlement date accounting to calculate performance results. Time-weighted total returns include both capital appreciation and reinvested dividends. The GSCM Composite performance is the total return including cash and cash equivalents, of an aggregated composite of all discretionary portfolios managed by Stuart Greenfield and Yancey Seitz. Composite returns are asset-weighted. Net of fees returns are calculated net of management fees, transaction costs, and custodian fees. Returns are calculated gross of all withholding taxes on foreign dividends. The dispersion measure is the asset-weighted standard deviation of accounts in the composite for the entire year. On 2/28/06 the composite changed software to Advent Axys.

Key Manager Change: In February 2002, Stuart Greenfield assumed co-responsibility for stock selection and investment management from Eric Greenfield. Yancey Seitz has shared investment management responsibility during all periods of the Composite.

Net-of-fee performance: Net of fee performance shown reflects the deduction of actual fees. To calculate gross of fees returns, please review our fees and add applicable fees back into returns accordingly. Actual fees are expected to be lower than the maximum scheduled rate of 1%. All charts and tables are shown Net of Fees.

Retail Fee Schedule: 1.00% on assets under management

Zero Fee Accounts: Greenfield Seitz Core Composite has 4 accounts with zero fees, which make up 3.67% of the total composite assets as of 12/31/2018. Of the 4 accounts in the composite, the first entered in 2011. Following are the number of accounts and percentage of composite assets since any non-fee paying accounts has entered the composite: 2011 - 1 account, 0.40%; 2012 - 1 account, 0.42%; 2013 - 3 accounts, 1.47%; 2014 - 3 accounts, 1.66%; 2015 - 4 accounts, 1.99%; 2016 - 4 accounts, 2.13%; 2017 - 4 accounts, 3.20%; 2018 - 4 accounts, 3.67%.

Compliance Statement: Greenfield Seitz Capital Management claims compliance with the Global Investment Performance Standards (GIPS®) and has prepared and presented this report in compliance with the GIPS standards. GSCM has been independently verified for the periods January 1, 1997-December 31, 2018.
